

# GET YOUR TECH ON!

The Renaissance Event Technology Department are comprised of an expert staff of technicians that work with each department involved for almost every aspect of your meeting. In addition, our technicians are personable and ready to take care of any audio, video, internet, or branding needs. This allows us to execute the most flawless event possible for our clients.

We look forward to speaking with you about your vision for your event and/or receiving your "Request for Proposal" or a spreadsheet of your audiovisual needs. You will be assigned an event technology partner who in addition to creating your proposal, will serve as your personal concierge for all Audio/Visual related questions or concerns.

Being an in-house technology provider, we have the flexibility to **beat or match** any published competitor price or budget. Not only do you get great value, but also the confidence of a dedicated internal staff with the convenience of an equipment warehouse on property.

If you have, any questions or concerns at any time throughout this process please feel free to contact me and I will gladly assist.

Sincerely,

Lauren Mayda, Director of Event Technology

## BREAKOUTS

In House Event Technology is the exclusive provider of audio-visual equipment for Breakout Meeting Rooms and Guest Rooms.

## THIRD PARTY AV PROVIDERS

The Hotel requires that the group will allow In-House Event Technology the first right of refusal to bid on general session. If hotel is able to meet or beat the lowest competing proposal, In House Event Technology will be awarded the bid.

If hotel is unable to meet or beat the lowest competing bid the group can bring in a third-party provider. The hotel will assess charges for any products provided such as support packages, power, internet, staging etc.
