A baby sea turtle is shown on a sandy beach at sunset. The turtle is positioned on the right side of the frame, facing left. The sand is dark and textured, with numerous small, bright orange and yellow spots scattered across it, likely from the setting sun. The turtle's shell is dark and has a distinct pattern of scutes. Its head is slightly raised, and its eyes are visible. The overall lighting is warm and golden, creating a serene and natural atmosphere.
